**6. CEB:** Developing responsive assessment prototypes. CEB is a global best practice insights and technology company that provides products and services to businesses worldwide.

**Edcite Learning Pvt Ltd****Jan 2014 — Jul 2015**

Front End Web Application Developer

Developed and released a number of interactive question types. Each of these is a pair of web applications that are plug-ins to a large complex cloud-based educational assessment platform. My work has been deployed onto the live site edcite.com. It has been used, as of Jul 2015, by over 50,000 teachers and over 500,000 students. Each of these apps is written using JavaScript, HTML5, CSS3, and a number of libraries and frameworks - jQuery, jQueryUI, AngularJS, Bootstrap, Hopscotch, Underscore, Phaser and others.

I also have experience in maintenance of my applications, providing bug fixes and enhancements. I worked as part of a team of developers and testers, size 10 - 20 members. We interacted frequently with our US office on features, design and user feedback.

**TinyMCE(plugin):** A rich mathematical expression editor.

**Zoom Number Line:** An interactive canvas based application to zoom a particular section and draw points.

**Mathematical Expression Evaluator:** An advanced evaluator with WYSIWYG keypad. Which used in almost all the mathematical applications on edcite.

**Number Line Game:** An interactive game built upon Phaser library. Allows the user to move the character to a particular point and qualify to next round.
